About M1 Adana Shopping Centre,

M1 Adana opened its doors in 2000 and, with the new perspective of shopping that it has provided the city, is the region's most successful shopping mall. The mall's first expansion in 2009 and then the second in 2017, reinforced its stature in the years to follow as a center of attraction in the region, and it has become a shopping centre that always considered the changing needs of customers.

Adding a new breath of life to retailing architecture, M1 Adana is a pioneer of a new architectural concept. Thanks to a new structural organization that offers visitors the opportunity to spend a fun-filled, relaxing time in the open air with its fountains and children's parks, its outdoor terrace cafés and restaurants, and a modern Shopping Promenade, M1 Adana has introduced the concept of both an Indoor and an Outdoor Shopping Center.

Designed to meet the expectations of modern life, M1 Adana stands out as a new-generation shopping center with its predominantly green areas, the chance it offers to take in the fresh air and in its indoor spaces, the advantages of benefiting to the maximum from natural daylight.

M1 Adana hosts 200 national and international brands all situated on a leasable area of 90,000 square meters.

Working together as leaders to achieve changes and transformation in the shopping mall sector, as investors and co-owners, awarded many times with several successful projects, **METRO PROPERTIES** and the **FIBA Commercial Properties** aim to provide the consumer with contemporary shopping malls with both their mix of shops and their architectural integrity.
